## YES OR NO

A Well-Known Physician, Who, Among Other Things, Is Noted for His Frankness.

No one ever heard Dr. E. Grower use the phrase "I think" in his practice. The doctor is one of those frank, fearless, honest, positive men who never hesitate to say "yes" or "no" as the case may require. "I can cure you" or "I cannot cure you," is his invariable decision after examination, and to this fact is attributable his remarkable record without failures. But it would be strange indeed if the doctor were not a more than usually successful practitioner. He has been surgeon-in-chief in more than one of the largest hospitals of this country, was lately Demonstrator of Physiology and Surgery at the Medical-Chirurgical College in Philadelphia, etc., and is still a close student. A man with such a record could not fail to be a successful physician under any circumstances, but when backed by cautious conservatism in expression, or to use a more popular phrase, the "be sure you're right then go ahead" system, it would be more than strange if failure overtook him.

You can consult Dr. Grower any day at Rooms 5 and 6.

Temple Court Building

311 SPRUCE ST., from 9 a.m. till 9 p.m. Consultations free. Those suffering from Nervous Diseases are guaranteed a cure. For such there is the cheering word "Yes," as failure is unknown in the doctor's treatment.
